

Dear families,

Thank you for another lovely week. This week we have been learning about the life cycle of a daffodil and have had lots of fun activities to take part in. We have explored the seeds in the tuff tray, measured the height of a range of daffodils, and made daffodils using the playdough. We have also had the opportunity to write sentences about the life cycle of a daffodil and paint our very own daffodils which are now displayed in Mrs Lowrey room. Please feel free to go and have look when you bring your children to school!

Please remember, as always, to practise their sounds and tricky words with them. We look forward to seeing who will win a certificate this week.

For home learning this week we would like for you to go on a walk around your garden or a park. Look carefully to see what trees and plants you can see growing. You could take some photos or draw some pictures of the things you see.

Once again we are very sorry in the regards to the Rosemoor trip, we know the children were really looking forward to it. But do remember it has been rescheduled for March 24th.

Many thanks. Have a lovely weekend.

The Reception Team.
