

Dear families,

Thank you again for all of your support this week. We hoped you enjoying being able to see the children writing books and learning journeys. We are delighted with the comments we have received from some of you, they were lovely, thank you.

This week we have been learning about the life cycle of a chicken, with links to Easter. The children have been able to make chicks and chicken with the playdough, make an Easter card, find eggs in the sand and play with "scrambled egg" in the tuff tray (don't worry it was shaving foam and food colouring, not real eggs!). We have also seen some great writing from the children this week about the life cycle of chicken.

The children are continuing to do very well with their sounds and their tricky words. They are making great progress with the writing and reading. Thank you for spending time with your children to help them with their reading and the learning of their tricking words.

Over the Easter break we will not be giving any home learning for you to complete. Please just enjoy the Easter break and have a nice rest!

Thank you again.

The Reception Team
