

The Curriculum at Orchard Vale Additional Information

Orchard Vale Community School is proud to offer a creative and varied curriculum that inspires and challenges all children. The National Curriculum underpins everything that we do, but we believe that this is best delivered through a holistic topic-based approach, which allows the children to immerse themselves in learning taking into account their individual needs and learning styles. The needs of individuals are central to the planning and teaching of the school's curriculum and all pupils have equal rights of access and inclusion irrespective of ability, gender, ethnic or cultural origins.

Please read our Home to School Link Sheets and Welcome Booklets to discover more about the routines and teaching approaches used in your children's year group and the exciting topics children at Orchard Vale will be studying term by term and year by year. The Home to School Link Sheets will also tell you how you can support your child at home in each curriculum area and how we ensure all statutory content is addressed too.

We update Home to School Link Sheets each term and paper copies are available from your child's class teachers or on the website in the Class Finder sections. Weekly letters from your child's teaching team will also give you information the curriculum areas taught year by year and term by term.
